

UK Construction File of major companies

The Insight Construction File brings together all the major building companies within one easy-to-use database, with the detailed information that will help you promote your products and services to the right people in the right organisations.

The File contains some 5,000 senior decision makers in 1,500 organisations, including the UK's leading main contractors, house builders, property developers and major property maintenance companies.

As the construction industry continues to face challenging times with companies changing, adapting and restructuring, having the latest market intelligence will give your business a competitive edge. The Insight Construction File is the most comprehensive, accurate database ever developed for the UK building and construction industry and includes;

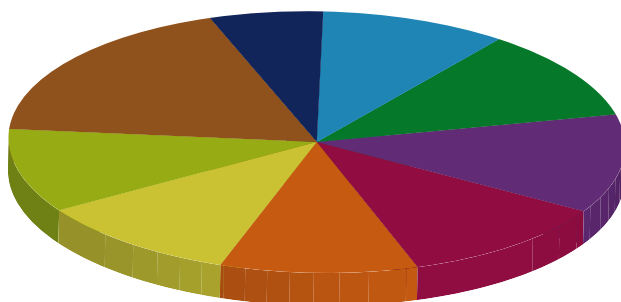

- **Full company details and senior decision makers, business locations and contact details including web and email address (where available)**
- **Primary business type - main contractor, house builders, property developers and major property maintenance companies**
- **Business sectors including public sector, commercial projects, education sector, retail development projects, leisure, health, and the housing market**

While some of the companies may be involved in infrastructure or utilities, the primary activity of companies on the Construction File is the development and re-development of large-scale building projects, and the File is ideal for suppliers of building products, equipment, training, business services - in fact any supplier that wants to promote their products and services to large building firms.

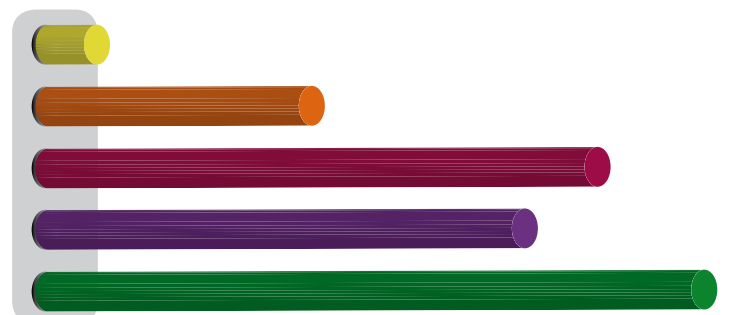

The Construction File is continuously updated by our research team and is ideal for direct mail, telesales, email campaigns or as a contact list for your sales team.
